

VESSEL INSPECTION APPLICATION

BSOL SYSTEMS PVT LTD

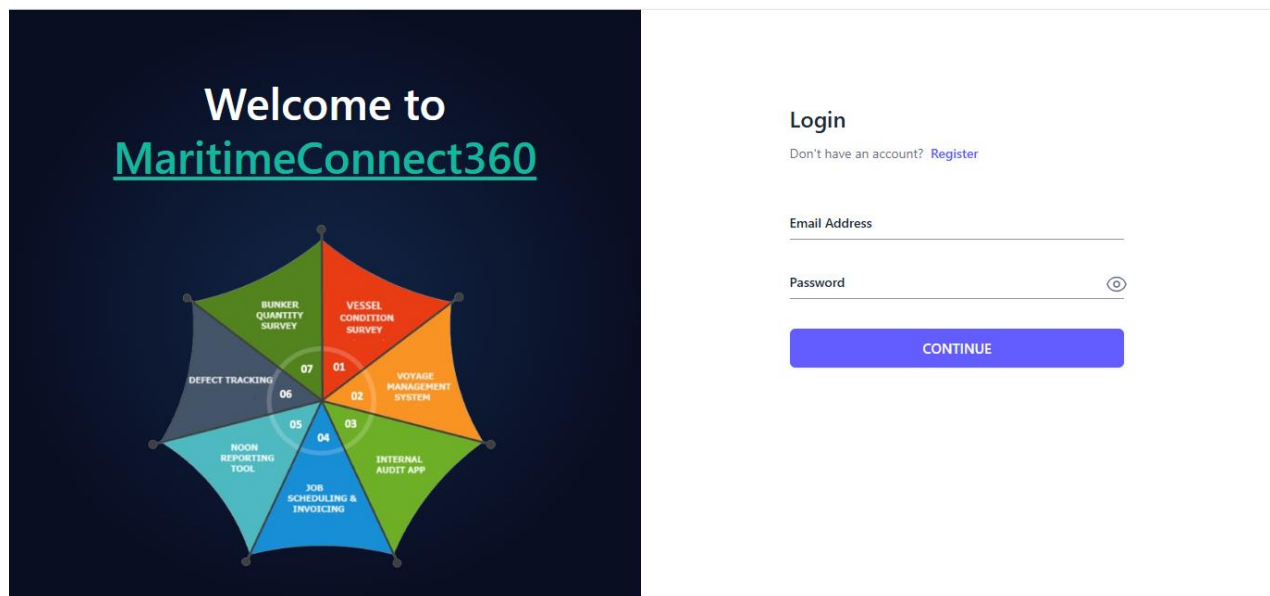

Vessel Inspection Application

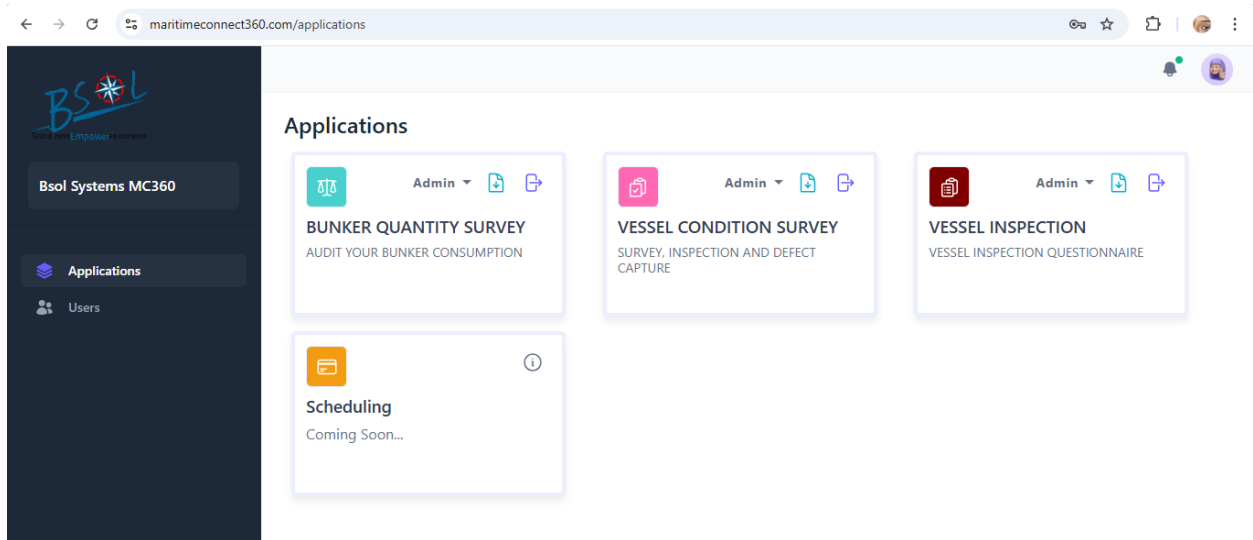

Vessel Inspection Application High Level Workflow

- Admin Creates New job and assign it to Surveyor in Web Application (Central Server). (Status is set to **pending**)
- The surveyor conducts a survey and enters Crew information, Inspection Summary, Attendance Activities and answers all the questions, creates Defects if present and enter the Remarks.
- Once the job is completed, the Surveyor will submit the Job for Review. (status is set to **For Review**)
- When the Job Status is set to For Review, job can be verified for the data and images and documents uploaded by Admin.
- Once the admin reviews the Job, he will publish the Job. The published jobs are listed under published jobs screens. (status is set to **Published**), (Once the job is published, the Job cannot be modified further.)
- If any modification or any update is required, admin can unpublish the job. (status is set to **Unpublished**) (Once the job is unpublished all the fields will be editable and user can modify/update the job).

Login Screen:

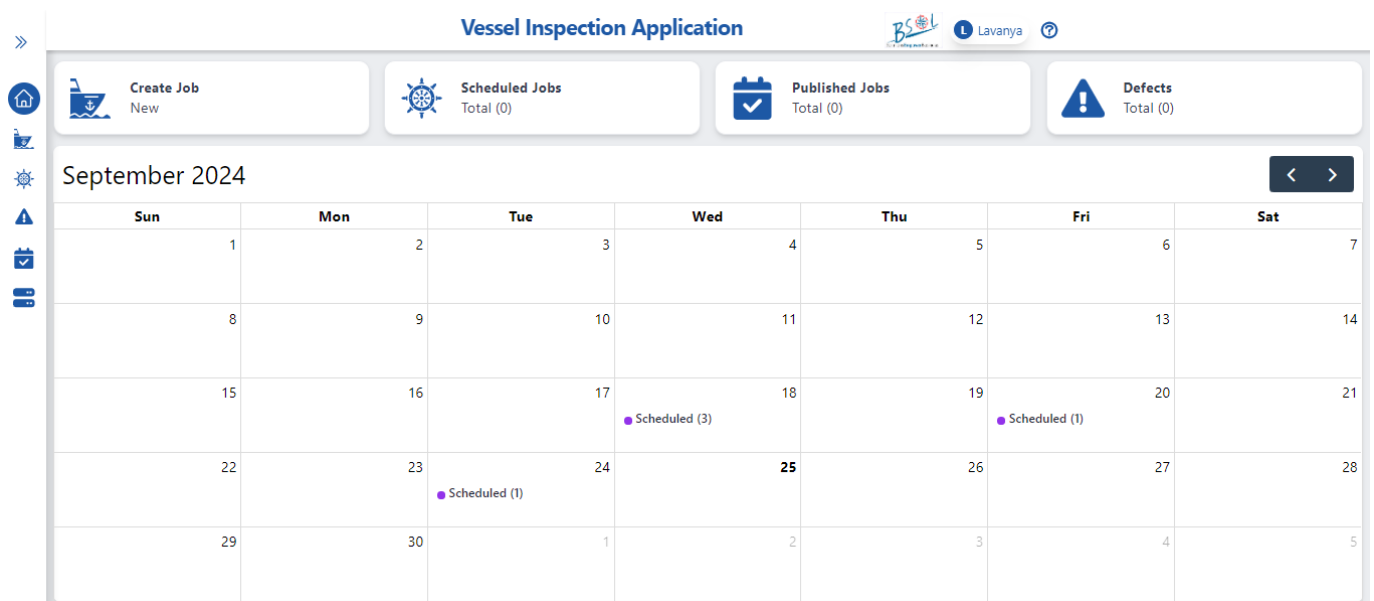

- Open the Browser and enter the URL “https://maritimeconnect360.com/auth/login”. Enter the valid Username and Password and click on Login Button.
- Click on button **Launch** present the Card **Vessel Inspection Application** from MC360 dashboard screen. Once the application is launched, user will be navigated to the Vessel Inspection Application Dashboard.

Dashboard Screen :

The dashboard contains the **main menus** and **side menus**. Upon clicking on the **side menus**, the user will be redirected to the selected screens. The **main menus** display **the numbers of the jobs** based on their status. In the **calendar**, the number of jobs performed on a particular date, along with their statuses, is displayed.

Create Job:

In the dashboard, when the user clicks on 'Create Job' from the side menu or main menu, the user will be redirected to 'Create Job' screen. The User needs to enter the data for all mandatory fields. The fields marked with an asterisk (*) are mandatory. Click on the 'Create Job' button.

- **Prelim Report:**

Users can print the Prelim Report for the Job by clicking on the button **Prelim Report** present in all the screens inside the Job. Prelim Report contains all the Vessel Information, Questionnaires along with the responses provided by the user.

- **Final Report:**

Once the Status of the Job is set to **For Review**, the user will be able to generate the Final Report. Final Report contains all Vessel Information, Questionnaires along with the responses and images uploaded by the user.

Steps to generate the Final Report:

- Select the Job for which Final Reports has to be generated. (Status : **For Review, Published**)
- Navigate to the Publish Job Screen.
- Click on Final Report present on Top Right Corner.
- Final Report will start generating. Once the Generation is complete, user will get the mail notification from which he can download the Final Report. Or user can download the final Report PDF from Publish Jobs Screen.

Scheduled Jobs:

All the created jobs (**Pending** Status) and jobs in the **For Review** status are listed under the scheduled jobs.

Note: When clicking on any job, the page will redirect to the job details screen.

Job Id	Port	Vessel IMO	Vessel	Date	Surveyor	Status
11	MANGALORE	1234567	GROOT	18-OCT-2024	Administrator	Pending

Published Jobs:

Once the job is published, the published jobs are listed on this screen. Published jobs are non-editable.

Defects:

All the Defects created in Questionnaire screen will be listed in Defects screen along with its status.

Defect Title	Vessel	IMO	Port	Created Date	Target Date	Criticality	Surveyor	Status
SHIP'S NAME, PORT OF REGISTRY	Bunga Lavendar	9304540	SINGAPORE	01-May-2024	04-May-2024	Critical	Rahul	Closed
BOW THRUSTER, BULBOUS BOW, TUG PUSH POINT MARKS	Lavraki	9632545	MERIDIAN	01-May-2024	04-May-2024	Non-Confirmative	Rahul	Open
IMO NUMBER WELDED AND PAINTED AT STERN AND ACCOMMODATION FORWARD BULKHEAD	Bomar Jupiter	9632542	RIO DE JANEIRO	01-May-2024	10-May-2024	Critical	Rahul	Open
PILOT LADDER MARK	Bomar Jupiter	9632535	ROTTERDAM	01-May-2024	15-May-2024	Critical	Rahul	Open

- When the user clicks on Defects, he will be navigated to the Defects Details screen.
- In the Defect Details screen, users can add the remarks, upload appropriate images and close the defect once it is resolved.
- As soon as the defect is created under questionnaire section, the status will be set to Pending.
- When the user accesses the defect details screen and updates the details, the status will be changed to InProgress.
- Users can close the defect by clicking on the button **Close Defect** present in Defect Details screen.
